Sub: Relative performance of The Riverside School in the ASSET test compared to schools nationwide

Dear Kiran,

The ASSET results for Winter 2019 are out and I am happy to congratulate on yet another stellar performance.

Assessment is an integral part of instruction, providing teachers with critical piece of information about the potential learning problems of individual students. It helps in determining whether the goals of education are being met. It is used to measure current knowledge that a student has. Today's students need to know not only the basic reading and arithmetic skills, but also skills that will allow them to face a world that is continually changing. They must be able to think critically, to analyze, and to make inferences. ASSET meets many needs. It provides diagnostic feedback and helps educators set standards. It helps a learner demonstrate what he has learnt, where the gaps are and whether their efforts in the past year have helped them improve. This information is valuable for principals, teacher, parents and students to get a clear and unambiguous picture along with clear and actionable feedback on how to improve. It is also a benchmarking tool. It provides comparative data on a school's performance with the national average. For schools performing well above national average, EI also provides comparative data with that of the top ten schools in the country. ASSET is taken by over 350,000 students in over 1500 private English medium schools every year. ASSET tests for conceptual understanding across boards of CBSE, ICSE, IGCSE and state boards.

The data shows that Riverside significantly outperforms schools at a national level. It is also at par and above some of the Top 10 schools in most of the class-subjects. Riverside has consistently been a high performer even in the Top 10 schools of India for the past ten years. Hearty congratulations to you and your teachers for achieving such a distinction.

Best Regards,

Siddharth

9	100%	136%	99%	-	24
10	128%	116%	126%	-	27

Riverside is above the Top 10 schools' average in 17 out of 29 class subject combinations. It is at par with Top 10 schools' average in 9 class subject combinations. It is very rare for a school to be in the top 10 schools for more that 10 class subject combinations and Riverside is doing this in most of the class-subject combinations.
